FIRST IMPRESSIONS ARE EVERYTHING

In the world of branding, leaving a lasting impression is everything.

Often microfiber cloths are overlooked as just a cleaning tool, but truth be told they are so much more. Unlike business cards and print advertising, people find it hard to throw away microfiber cloths because of its intrinsic value. It is soft, durable, and cleans just about anything you can imagine. When you combine that with the ability to print directly on the microfiber, you have "My Promo Cloth".

We look at our microfiber as a blank canvas, ready to tell your story. Showcase your brand, highlight your logo, or simply use it as a cleaning tool.

Our microfiber stays in the pockets and hands of those who receive it and offers your business a great way to stay in touch (literally) and front of mind.
